

# TLR Defense Services

Regulatory and Compliance Service Provider in International Marketplaces

Since 1974, TLR has been offering a variety of services that provide defense contractors with international transportation of highly sensitive, regulated cargo, secured facilities for storage, and guidance through complex regulatory environments.

- Registered with the Directorate of Defense Trade Controls (DDTC) as a broker and exporter.
- Subject matter experts in International Trade in Arms Regulation (ITAR) and regulatory compliance for the defense industry.
- Specialize in shipping ammunition, ordnance, weapons systems, class 1 and class 7 hazardous materials.
- Compliance expert in process and documentation, executing both internal and external audits.
- Comprehensive software analysis capabilities, consistently screening all parties in our system against the most up-to-date sanctions lists.
- Specialized operator of unique, secure facilities for FMS and private defense contractors.
- TLR Europe has exclusive rights to 22 military-style bunkers with perimeter fences, infrared cameras, and alarm systems to create a state-of-the-art high security storage and warehousing facility.
- Past performance case studies available: Europe, Australia, and Saudi Arabia
